Privacy Policy for GuardBot
Effective Date: June 16, 2025

This Privacy Policy outlines how **GuardBot** ("the bot", "we", "us") collects, uses, and protects user data in accordance with Discord's policies and best practices.

1. What Data We Collect

GuardBot may collect the following data, only when necessary for functionality:

- Discord user IDs, server IDs, channel IDs

- Message content (only for moderation and logging if enabled)

- Role and permission data

- Timestamps and command usage for analytics

2. How We Use Data

Data is used exclusively to:

- Provide core bot functionalities

- Enable moderation features (e.g., timed bans, role assignment)

- Track and manage command interactions

- Improve and maintain the service

3. Data Storage & Security

We do not store any personal data beyond what is necessary for operation. All data is stored securely and is not shared with third parties. No data is sold or monetized.

4. Third-Party Services

GuardBot does not integrate with any third-party services that process personal data outside of Discord.

5. User Rights

Users may request the deletion of their data or ask for clarification about how their data is used. Contact the bot owner via Discord for assistance.
